U.S. Biologics Technical Development Co-op and Intern Program

U.S. Biologics Technical Development (USBTD) develops, delivers and supports, robust cost-effective production methods and technologies to meet the needs of Genentech's Research, Development, Commercial and Product Operations groups. The group has long been recognized as a world leader in developing large-scale manufacturing processes, sophisticated analytical methods and effective drug delivery systems.

We are currently recruiting for positions in the USBTD Co-op and Intern Program for our South San Francisco, CA headquarters. Six-month co-op positions will begin in January 2014 and July 2014, and three-month internships will begin in May/June 2014.

As a co-op or intern, you will be assigned a project in one of the following areas within USBTD:

- Cell Culture and Fermentation Development
- Purification Development
- Protein Analytical Chemistry
- Analytical Operations
- Biological Technologies
- Pharmaceutical Development
- Drug Delivery Development
- Device Development
- Pilot Plant Operations
- Process Development Engineering

This program provides a broad perspective and appreciation of the development of new processes, methods and technologies at different production scales in the biotechnology industry.

Candidates applying for the USBTD Co-op and Intern Program should be passionate about science/engineering and thoroughly enjoy the challenges associated with complex problem-solving. Candidates must be highly self-motivated and willing to work independently and as part of multi-disciplinary teams that work hard in an atmosphere of casual intensity developing medicines for unmet medical needs.

Other qualifications include:

- Enrolled in sophomore year or higher at a college/university or any year at a graduate school
- Preferred disciplines: chemical and biochemical engineering, biomedical engineering, bioengineering, pharmaceutical engineering, analytical chemistry, biochemistry, molecular biology, microbiology, biology, or related disciplines
- Demonstrated high level of scholastic achievement
- Relevant work experience in research labs or the biotechnology industry is highly desirable

To apply for any of these position(s), please apply to the corresponding job ID at careers.gene.com:

Winter Co-op ID: **00416239**

Summer Co-op ID: **00416240**

Summer Intern ID: **00416244**

Applications will be reviewed on an ongoing basis through March 2014. For additional information or to learn more about our programs, please visit careers.gene.com. Genentech is an equal opportunity employer.

In January 2013, Genentech was named to FORTUNE's list of the "100 Best Companies to Work For" for the 15th consecutive year.
